*Simple changes can save you \$\$
as well as saving our environment.*

Energy Use

- Install energy efficient light bulbs.
- Use curtains or blinds on windows to let in or keep out sunlight and heat.
- Purchase appliances with high energy stars.
- Turn off TV / videos at the power point overnight.

Water Use

- Install water efficient AAA-rated showerheads - one family can save \$100/year.
- Have quicker showers.
- Check and fix leaking taps.
- Have a Refit Kit installed.

Reduce, Reuse, Recycle

- Recycle - around 25% of household waste can be put in your recycling bin.
- Donate your unwanted or outgrown clothes and household goods to charity.
- Place a "No Advertising Material" sticker on your letter box.
